

## TEMPUR Hybrid Supreme

The 21cm Tempur Hybrid Supreme is the best of both worlds, combining advanced viscoelastic foam created for NASA with Precision Micro Coils. The first layer is 3cm of Advanced Tempur material, a slightly firmer material to relieve pressure and conform to your shape. 5cm of Dynamic Support Technology allows for ease of movement, while 10cm of Precision micro coil springs are individually pocketed to maximize support and react to your movement. The Tempur Hybrid Supreme mattress features a super soft cover which can be unzipped and aired or washed at 60°C. It also has a 10 year guarantee on it for your peace of mind.
