

TEMPUR Hybrid Luxe

The Tempur Hybrid Luxe utilises the softness and supportiveness of memory foam with the responsiveness of springs in a 30cm mattress. The first layer is 4cm of Advanced Tempur material, a slightly firmer material to relieve pressure and conform to your shape. 3cm of Dynamic Support Technology allows for ease of movement, while two separate layers consisting of 10cm of Precision micro coil springs each maximize support and react to your movement. Finally, 3cm of DuraBase Technology completes the package by offering extra support and ensuring the longevity of the mattress. The Tempur Hybrid Luxe mattress features a super soft cover which can be unzipped and aired or washed at 60°C. It also has a 10 year guarantee on it for your peace of mind.
