

TEMPUR Cloud Elite

The Tempur Cloud Elite mattress is a specially engineered balance of softness and support that provides a sumptuous sleep with all of the benefits of Tempur's world quality support. Ensuring a quality night sleep every time. Composed of three intuitive layers the top 7cm Tempur Extra Soft material cradles you as you sleep, moulding to your body. The second layer is a 7cm Tempur support material, which provides the durable support and works in tandem with the extra soft layer. The final layer is an Tempur 11cm Durabase designed to cushion and cradle you as you sleep, while conforming to the shape of your body. The result is a soft luxurious mattress that distributes your weight, reducing pressure while you sleep and absorbs movement, while reducing tossing and turning.
