

TEMPUR Sensation Supreme

With 21cm of specially designed technology engineered to enable ease of movement, the Tempur Sensation Supreme has a wonderful bouncy feel that is similar to that of traditional spring mattresses. Its top base is 2cm worth of Tempur Comfort material, designed to relieve pressure and absorb partner motions, ensuring a restful sleep. Beneath is 4cm of Tempur Support material, providing firm support and evenly distributing pressure across the mattress. Working in conjunction with the above layers is 4cm of Dynamic Support Technology, offering light support and enabling ease of movement. Finally, the 11cm of DuraBase Technology works with the other layers to provide the utmost comfort while also extending the lifespan of the mattress. Each Tempur Sensation Supreme comes with a 10 year guarantee and, with an easily removable washable cover, hygiene maintenance is easy.
