

## Habufa City

City is a dining collection made from Oak grows mostly in Northern and Eastern Europe, where it is harvested from sustainably managed forests under the strict supervision of the forestry commissions. The wood used for your furniture is a unique product of nature that is processed following traditional methods after careful selection. Its characteristics are unique in every way; not one piece of wood is equal in shape, structure or colour. Each piece has variations in colour shade are inevitable within each piece of furniture. Wind cracks, hairline cracks, irregularities and the presence of big and small knots are the result of years of growth and originality. In time, the furniture will obtain a lighter and warmer colour through use and exposure to light. Colour differences in comparison to showroom models are therefore to be expected. Your piece of furniture has a semi-protective layer.
